Ref. No. MCL/SBP/GM(S&M)/Sectt./2014/ 1377

Date : 29th September, 2014

NOTICE

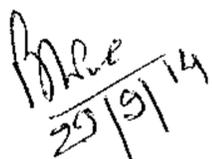

As directed by competent authority of MCL, this is to inform all IPPs and CPPs coal consumers taking coal by Rail mode under FSAs from MCL that in case of such consumers whose units / plants are situated within a radius of 50Kms. from the nearest mine of MCL, there will be a reduction of 30% of their rail entitlement / programme which will be offered by Road mode and 70% of the entitlement / programme will be offered by Rail mode. This decision has been taken by MCL on urgency basis to augment coal supplies to long distance power houses which are in critical and super critical coal stock position and their power generation is suffering for want of coal. The said movement of coal by Road mode to above said short distance consumers as convenient logistical alternative will help in achieving more availability of railway rakes for long distance critical / super critical power houses which are dedicated to Rail mode and do not have any other feasible alternative logistic convenience.

The above decision will be affective from the month of October, 2014 and onwards.
